

# Exploring Tradeoffs in the Texas Energy System

This panel will discuss the current energy system in Texas, its history and how it contributed to the events during the third week of February 2021. Key topics will include the costs and benefits of ERCOT's Energy Market, the Texas energy regulatory structure, and mechanisms to reduce the future occurrence of prolonged electricity shortages.

**Monday, March 1, 2021**

5:30 pm - 7:30 pm CST, via Zoom Webinar
